CEO PAY AND FIRM SIZE: AN UPDATE AFTER THE CRISIS

Xavier GABAIX, Augustin LANDIER et Julien SAUVAGNAT

ConstructDatabases.do and Regressions.do reproduce the tables presented in our paper, "CEO Pay and Firm Size: an Update after the Crisis". The data are at the firm-year level.

ConstructDatabases.do uses Compustat and Execucomp as initial databases, which can be merged with the gvkey identifier.

Please read the paper for a full description of the data and how the variables were collected and defined.
