

INTRODUCTION TO SPORT ANALYTICS (20630)

Exam May 22nd 2019

Allowed time 90 minutes

Use your knowledge of Sport Analytics to provide a structured (based on data and coding) and motivated discussion of the following issue:

The market for NBA players playing in the position of "Small Guards (SG)" is more efficient than the market for players playing in the position of "Centers (C)".

Provide a report containing your answer and hand in the report alongwith the R codes used to construct your answer.
